TROY STREET DIRECTORY

COPYRIGHT, 1916, SAMPSON & MURDOCK CO.

Giving the name of each street and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as for instance, wishing to know at what part of Second street No. 168 comes, look at Second street, and it is found that Liberty street crosses at 156, Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Ciphers are substituted for numbers on streets not fully numbered.
